ENERGY SISTEM

User Manual

INTRODUCTION

Energy Sistem® Thank you for purchasing the Energy™ Color eReader C Touch. The following sections provide an overview of your new device and its basic features. Please read everything carefully before start using the product.

IMPORTANT SAFETY INSTRUCTIONS

To ensure your safety and the safety of others, please ensure that you read all the safety information before operating this product.

Keep this information in a safe place for future reference.

Cautions

We strongly recommend reading the points below before operating this product:

▸ Back up the data periodically to another safe media. Under no circumstances there is not any liability regarding data damage or loss.

▸ Do not place the reader near devices that emit strong magnetic fields. It may cause data damage or loss.

▸ Do not disassemble or remodel the device.

▸ Do not let the device drop or shock.

▸ Do not use the device under heavy moisture or wet.

▸ Do not press strongly the device screen.

▸ Do not use the device in a dirty or dusty environment.

▸ Do not remove micro SD/SDHC card or turn off the device during data writing or reading to prevent damage to data and to the device.

▸ Make sure the micro SD/SDHC card is unlocked before writing or deleting data in the SD card.

Mantenimiento

There are no user serviceable parts in the Energy™ Color eReader C Touch.

Limpieza

Always POWER off your Energy™ Color eReader C Touch before clean it.

GETTING STARTED

1. We recommend making a full charge of the battery before first use. Connect the ebook through the supplied USB cable to your personal computer (must be turned on).
2. We recommend that the first three charges of the battery are 12 hours each; with this you will extend the battery life and will give you a longer time of use. The following charges only will require about 5 or 6 hours to fully charge the battery.
3. Your eReader is powered by a special Li-ion polymer rechargeable battery. When the battery becomes low, connect the reader through the micro USB cable to your computer USB port.

The charging status is shown as below:

battery low   charging   fully charged

4. Please handle the device with care to prevent damage to the display screen.

POWER ON/OFF

To power on your Color eReader the power switch must be on the ON position. Keep pressing the button ♥ for 2 seconds to start the device.

The first time you use your device or after a factory restore the language startup screen will be displayed allowing you to select the language for the user interface.
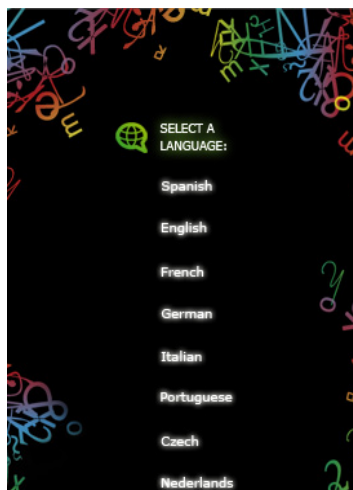

To power off the device keep pressing the button ♥ during 3 seconds. The turn off message will be show before power off.

We recommend always keep the Power switch on the OFF position while the eBook is OFF to prevent the device get started accidentally.

FILES MANAGEMENT

From the browser of your computer you can copy, delete and organize files or folders.

When you connect the device to the computer, it is not possible to use the device at the same time.

The internal memory files are organized in various folders (factory default). You can create, delete and organize internal folders.

If you have a micro SD/SDHC card inserted, the device will compile all the information stored in it.

USING MICRO SD/SDHC CARDS

The Energy™ Color eReader C Touch supports standard Micro SD/SDHC cards for storing thousands of books, music and pictures.

▸ The Energy™ Color eReader C Touch supports standard Micro SD/SDHC cards up to 32 GB.
▸ To begin, slide in the card into the slot, be sure that contacts of the card must be face down and the label face up.
▸ To eject the card, just push it in slightly.

Notes:

▸ You will know when the Micro SD/SDHC is ready to use when it appears as TFCard device in the Explorer.
▸ If Micro SD/SDHC card cannot be recognized by the device, you should remove the Micro SD/SDHC card again and reboot the device.
▸ When the system is reading or writing data, please do not remove the memory card or reset the system.
▸ If you need to reformat the Micro SD/SDHC card please create a backup copy of your files previously and format the Micro SD/SDHC card in FAT/FAT32 file system.
▸ To perfom a search of the files stored in the memory card access to the Explorer menu.

RECENTS

From this option you can access to the last read list. Tap the icon   to access this option.

TROUBLESHOOTING

The device hang or cannot be switched on.

If battery has been fully deplete the device will not have enough capacity to power on.

1. Charge the device using the USB cable at least for one hour. Press the POWER button and if the device can not still be switched on, continue with the next step.

2. If you have the eBook connected to the computer, please disconnect and press the POWER button.

3. Check if the Off/On switch is on the ON position.

4. As last resource we recommend you to update the firmware with the last version available in our website.

Battery capacity seems short:

▸ The battery was not used for a long time. Please charge the device completely.

▸ The battery is not fully charged. Please charge the device for aproximately 6 hours.

▸ We recommend you to use Energy Sistem chargers K Series to charge your Color eReader C Touch. For more information please visit: http://www.energysistemstore.com/es-es/productos/complementos_audio_video

Cannot read/open en ebook:

▸ Check if the book format is supported by device.

▸ The book has copyright protection DRM. Your device does not support books with DRM protection.

The device cannot be operated during mini USB connection

▸ The device cannot be operated while it is transferring data to a computer to prevent any damage on reader internal memory or microSD card.

MicroSD card is not being detected:

▸ After inserted a microSD card, if your device is has no response, please take out and insert again.

▸ Do not remove microSD card or turn off during data writing or reading to prevent

▸ damage to data and your device.

- ▸ Make sure the microSD card is unlocked before writing or deleting data in the microSD card.

- ▸ Backup your files and data before formatting the microSD card. Please format the microSD card in FAT/FAT32.

- ▸ Your eBook only can read microSD cards up to 32 GB.

Why do some EPUB documents not look right on my Energy Book?

- ▸ Many publishers and convert software are supporting this format, but without maintaining a single standar set. One of the most common problems is when the creator puts everything EPUB e-book content in a "chapter" in EPUB. This can cause the document reading differs with formatted text, margins, gaps, etc.

Can I listen music while reading?

- ▸ Yes, except in PDF format.

Why some video files can not be played?

- ▸ If the resolution exceed 800x480, you might experience some troubles to play these files. Change the resolution or try with another video. The file format/codec may not be also compatible. Please convert the file with a specialized program to ensure compliance and obtain a file which occupies less space in reader memory

FIRMWARE UPDATE

To update the firmware of your Color eReader C Touch, visit ourdownload section in our website: **www.energysistem.com** You will find all the files and instructions needed to update successfully your device.
